

EXPERTLY NAVIGATE ANY SURFACE, CLOG FREE.

AquaNaut 250

Suction Cleaner

AquaNaut's patented technologies are designed to deliver a thorough clean for pools of all shapes, sizes and flow rates.

AquaNaut 250

Suction Cleaner

ROBUST DESIGN,
RELIABLE CLEAN.

- **Handles larger debris without clogging.**

The patented self-adjusting variable vanes of **AquaNauts V-Flex technology** provides maximum power at almost any flow, eliminates clogs by allowing large debris to pass easily through the cleaner.

- **Expertly navigates any surface.** Patented robust tyre treads provide superior climbing power and obstacle maneuverability - especially main drains.

- **Maintains constant suction.** AquaNaut's patented adjustable roller skirt, maintains optimal suction on uneven surfaces.

- **Warranty:** 2 years + **1 year** if purchased from a Totally Hayward Partner.

Optimal Suction at almost any flow.

Three easily interchangeable throats improve performance and allow for larger debris to pass. As such, AquaNaut is ideal with variable speed pumps.
