Hayward ProSeries™ Sand Filters

Hayward ProSeries™ Sand Filters offer smooth, efficient flow and totally balanced backwashing. The filters feature unitized construction of corrosion-proof, polymeric material and self-cleaning 360° slotted laterals.

A versatile seven position control valve offers both easy operation and maximum efficiency.

For crystal clear, sparkling water with minimum care, Pro Series filters set a new standard for performance, value and dependability.

Saline C™ 6.0 Commercial Salt Chlorine Generator

Hayward Commercial Saline C™ 6.0, NSF certified commercial salt chlorine generator is designed to produce up to 6 lbs. of chlorine per day.

It features a compact design in a single clear vessel with a single heavy duty power supply, eliminating the need for daisy chaining multiple cells. This more-efficient design lowers installation costs and consumes less space.

Designed to meet the needs of commercial applications that benefit by the operation of a salt-chlorinated pool and lowering sanitization costs.

Hayward Acquires Paramount Leisure

Paramount

Hayward Industries, Inc. acquired Paramount Leisure Industries, Inc. based in Chandler, Arizona USA.

The Paramount in-floor cleaning technology and their complementary products in the sanitization and white goods space make Paramount a wonderful addition to the Hayward family of products.

Paramount Pool and Spa Systems will add significant value to our mutual customer base providing pool builders and servicers an even wider array of innovative products and services supported by a world-class team.

Paramount UV Sterilizer

ColorLogic® Light Controller for simple installation and convenient control.

The ColorLogic® Light Controller puts the power of colorful, customizable low-voltage ColorLogic LED lighting at your fingertips. Choose the perfect color option for your pool and backyard from right inside your home using the convenient dial and preview window.

ColorLogic lighting is designed to illuminate nearly any new or existing pool or spa environment, and now with the light controller, pool owners can present dramatic lighting effects at the turn of a dial.

Experience unparalleled dramatic color with accurate control and ultimate convenience – choose the ColorLogic Light Controller for your prestigious pool project.

Contact Hayward/IMG for more details on this ColorLogic lighting enhancement.

60Hz operation only**

The IM 3700 Light – A Solution to Tight Budgets

The 3700 value light is a good choice for fountains, steps and benches where a pool sized light is not practical.

The 50W/12V halogen light has an optimized reflector assuring good lighting performance in a smaller fixture. The lamp is also field substitutable to an MR16 type LED lamp that should be available locally.

The 3700 is complete with niche and light removal tool. The light is ideal for tight budgets when a feature light is specified.

ProHayward Transformer

The 3700 light can be used with the ProHayward Transformer.

Amerrec AK Steam Generator

Amerrec AK Steam Generator

The Amerrec AK steam generator uses full power to quickly heat up the steam room to its preset temperature, then cuts power to half its elements. The result is a more consistent flow of soft steam and more stable temperature.

The new Comfort Flo Steam Head gives an improved dispersion pattern that

Comfort Flo Steam Head

provides even heat throughout the steam room. The steam head's internal Ryton plastic insulator prevents the exterior metal surface from reaching high temperature.
