

AQUARITE 900 Series – The World’s #1 Salt Chlorinator with SmartControl

Integrated with OmniHub, Hayward’s innovative automation platform, AquaRite 940 Omni™ offers simple control of virtually every type of pool and spa equipment, right from a phone, tablet or Alexa®.

The AquaRite 900 Series now offers unmatched comfort, convenience, and peace of mind.

The Extended Life TurboCell produces 25% more chlorine over its lifetime than the other leading AquaRite systems.

The AquaRite 900 series salt chlorine generators are NSF certified for chlorine delivery rates and ETL safety certified. The 900 series come with easy to understand digital display, automatic cell cleaning using reverse polarity technology and super chlorinate function.

OmniHub can also be added to any existing AquaRite system for a total upgrade.

AQUARITE WITH SMART POOL CONTROL

PART NUMBER	DESCRIPTION
HLAQR940	AquaRite 940 with OmniHub smart pool control and 40,000-gallon Extended Life TurboCell
HLAQRPCB	Omni smart pool control daughter board for existing AquaRite system installation upgrades

SHEER 500 – Waterfall Fitting

Hayward’s Sheer 500 can be customized to any pool to create an enchanting falling water effect that blends seamlessly into any backyard creating a dramatic visual and acoustic environment.

Combine with Hayward’s LED lighting to create a unique blend of color with the beauty of falling water.

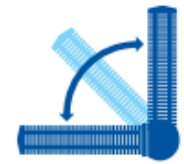

Available in lengths from 1 ft. to 5 ft. with rear or bottom connection options and with the ability to be installed in both straight and curved applications, the Sheer 500 can conform to any pool and spa shape.

ProSeries™ Filters - Long Lasting Performance

ProSeries top-mount and side-mount sand filters utilize a precision engineered umbrella-fold self-cleaning lateral system to provide

ProSeries™ Top Mount

efficient flow and evenly distributed water for totally balanced backwashing and long lasting performance.

The filters are made of durable corrosion proof materials for dependable all weather performance.

ProSeries™ Side Mount

They feature a large pressure sand/water drain for rapid winterizing or servicing.

Top-mount models are available with 7-position or 6-position VariFlo™ control valve. Side-mount models are available with 6-position VariFlo™ or 2-position slide valve.

Hayward DynaSkin™ Skimmers – Low Profile and virtually indestructible

DynaSkin™ SP1091WM

Hayward skimmers are the preferred choice of professional pool builders. The skimmers are manufactured to Hayward's rigorous quality standards. Their durable, unibody construction is molded of rugged ABS, and they have been designed without submerged joints.

Hayward DynaSkin™ Automatic skimmers are non-corrosive skimmer packages designed for the gamut of above-ground pool and some in-ground applications. A smooth, contoured body, combined with the advanced patented weir, removes debris more completely and efficiently.

DynaSkin™ SP1091LX

The low profile design gives you the flexibility of maximum installation height on decks and ledges.

Hayward skimmers come with multiple plumbing connections for easier installations.

ProHayward 3680 Sealed Panel LED Underwater Light

The new ProHayward 3680 sealed panel nicheless light is fitted with an LED panel that is completely encapsulated in a water tight resin. The SMD LEDs are 12V/18W to provide dazzling pool lighting.

The RGB version provides 7 fixed color choices and 8 color changing shows.

The WHT version can be switched to either a warm white or cool daylight.

Water flows through the rim to help eliminate stagnant water and provide

effective cooling for the housing. The light is easily mounted onto a rugged bracket.

The ProHayward 3680 light is manufactured of ABS with UV protection, has 2.0m cord and conforms to IP-68.

The outer frame has a 24cm diameter and has an embossed Hayward logo.
