

OmniHub™

THE EASIEST WAY TO ADD SMART CONTROL TO EXISTING POOLS & SPAS

*App only. Smartphone not included

The OmniHub™ is a superb value upgrade for both new and existing system installations.

The OmniHub™ can control a host of equipment including variable-speed pumps, heaters, pool/spa lighting, spa equipment, AquaRite® salt systems, booster pumps, landscape lighting, chemical feed pumps, valves and water features as well as provide pH/ORP monitoring and level sensing.

The OmniHub™ uses a control pad touchscreen as the main interface. Additional control is possible through haywardomnilogic.com.

OmniHub Control Interface Options: Touch Panel, Browser, Smartphone App

PUMPS
Control flow speed

HEATER
Adjust temperature

With the OmniHub™ you can access, manage, and schedule pool functions from anywhere via easy to use iOS and Android smartphones and voice-controlled devices, including Amazon® Alexa and Google® Assistant

Hayward's Omni Automation System uses cloud-based communication to offer

the simplest integration with leading home automation systems so homeowners can control the most important aspects of their pool system from the same interface as the rest of their home and property.

If you are looking to replace a pump, put in a new salt chlorination system or upgrade another type of pool equipment bundling Hayward® products with OmniHub™ is an easy way to add total control at significant cost savings.

OmniHub Bundles Available:

A OMNIHUB™ with 2 SmartRelays	B OMNIHUB™ with VSOMNI™ PUMP	C OMNIHUB™ with AQUARITE®900

Hayward Chemical Feeders - Accurate & Controlled

Hayward automatic tablet feeders are available in different sizes and use easily available trichlor tablets.

All models feature a dial control valve to accurately adjust the rate of feed. The Easy-Lok™ threaded cover provides extra security for safe convenient access to chemicals. The feeders are available in in-line or off-line models offering convenient installation options.

CL200 IN-LINE FEEDER

Automatic tablet feeders are ideal for outdoor pools where they provide a controlled supply of stabilized chlorine.

PROHAYWARD Ladders

Appreciated by builders and users

ProHayward stainless steel ladders are available in three different models to suit both overflow pools and skimmer pools.

The ProHayward ladders are manufactured with "easy-to-grip" 43mm diameter, SS304 tubes. With a

mirror like finish, hidden thread bolts and a mechanically fixed anti-slip pad, the ProHayward ladder has features that are appreciated by builders and users alike.

Each ladder is conveniently packaged in one box with all the necessary hardware for installation including the anchors, escutcheons and non-scuff rubber bumpers.

Each non-slip tread features the famous "H" logo.

Amerec AK Steam Generators – First Class Performance

To add steam to the shower simply requires an enclosed shower and the addition of a steam generator and control. Luxury is added without using any extra space.

The Amerec AK steam generator uses full power to quickly heat up the steam room to its preset temperature, then cuts power to half its elements. The result is a more consistent flow of soft steam and more stable temperature.

The new Comfort Flo Steam Head gives an improved dispersion pattern that provides even heat throughout the steam room. The steam head's internal Ryton plastic insulator prevents the exterior metal surface from reaching high temperature.

Amerec steam generators can be consolidated with your Hayward shipment.
