JULY 2024

HAYWARD® OMNIHUB® Gives You BETTER Control of Your Pool System

For new and existing pool systems the **Hayward® OmniHub®** is a superb value.

With the **OmniHub®** you can access, manage, and schedule pool functions from anywhere via easy-to-use iOS and Android smartphones and voice-controlled devices, including Amazon® Alexa and Google® Assistant.

The **OmniHub®** uses a control pad touchscreen as the main interface. Additional control is possible through any browser via

haywardomnilogic.com

Use a single system to control a host of equipment including variable-speed pumps, heaters, pool/spa lighting, spa equipment, AquaRite® salt systems, booster pumps, landscape lighting, chemical feed pumps, valves and water features as well as provide pH/ORP monitoring and level sensing.

Bundle Hayward® Energy Efficient Variable speed pumps and Aquarite® systems with **OmniHub®** to add total control at significant cost savings.

A Hayward **SmartPower®** Transformer can be used with the **OmniHub®** and **OmniDirect Mode™** for additional lighting shows, colors and dimming control.

App only. Phone not included,

Easily alternate colors for up to four zones with Hayward UCL Lights. You can change color between the pool, spa or water features without requiring additional HV relays or transformers up to 75W per zone.

PROHAYWARD Blü Media – BETTER FILTRATION

PROHAYWARD Blü Hi-Performance Filter Media can replace the sand in your filter for DE-like filtration quality.

Just one pound of PROHAYWARD Blü will do the job of 100 lbs of sand!

PROHAYWARD Blü ProSeries™ Filter with ProHayward Blü lasts longer than sand and will not degrade with flowing water. PROHAYWARD Blü media provides very little resistance to water flow. For variable speed pumps, you can decrease your pump speed and still maintain the same circulation flow rate.

ProSeries™ Filter with ProHayward Blü

PROHAYWARD Blü is sold in 1lb bags and is available in a master carton of 12 bags.

Contact Hayward IMG to order a sample of PROHAYWARD Blü.

PSV Series Valves

Hayward® PSV Series

check valves and 2 way/3-way diverter valves make water flow management simple and maintenance free. Hayward valves are manufactured with NSF certification. All components are made of corrosion resistant materials allowing for improved performance over an extended life.

NSF

3-way Valve

The diverter valves feature a patented handle for quick customization of valve ports.

PSV Series valves are available in multiple materials, size and port configurations to accommodate most new construction and aftermarket applications

Check Valve

The PSV diverter valves are compatible with Hayward's GVA-24 electric valve actuators that can be used with Hayward automation systems like the **OmniLogic®**, the **OmniHub®** and the best-selling **AquaSolar® GL-235™** controller.

GVA-24 Actuator
